

# Don't Wanna Be The One

## Midnight Oil

I'm an innocent victim, I'm just like you  
We end up in home units with a brick wall view  
I can't believe the perfect families on my colour TV  
If I don't make it to the top it'll never bother me And I don't want to be the one  
I don't want to be the one I'm an innocent bystander caught in the path  
Waiting out the back while the corporate attack  
Assaults the senses with relentless scenes of passion and delight  
I cut up all the options and went running for my life
