

Alone Together

Lovers and Liars

Here I am again
The same place that I was back when
She was seventeen to me by the end
But she gave up and I gave in

All the nights, they end with blood and wine
All the days of charades that we designed
To keep the past behind
Until the future's looking fine

How did we end up this way?
Together we're alone
I shouldn't be this afraid
To face life on my own

If we end up alone
let's be Alone Together
If you're alone
let's be Alone Together

If we're alone
let's be Alone Together
What do you say?
What do you say?

Why am I in this state of mind?
Before her, I swear I was fine
Guess we all ignored the signs
Guess I painted over mine

All the nights, they end with blood and wine
All the days of charades that we designed
To keep the past behind
Until the Future's looking fine

How did we end up this way?
Together we're alone
I shouldn't be this afraid
To face life on my own

If we end up alone
Let's be Alone Together
If you're alone
Let's be Alone Together

If we're alone
Let's be Alone Together
What do you say?
What do you say?

If we end up alone
Let's be Alone Together
If you're alone
Let's be Alone Together

If we're alone
Let's be Alone Together
What do you say?
What do you say?
