Julian (B-Side)

Circa Survive

Who left the lights on Julian?
made promises, broke them enough for being said
who left the lights on Julian?
they come, waking the whole house up
you've been longing for...
wake them up
you've been longing for being too honest
aming without cause
who left the lights on Julian?
made promises, broken them enough
who left the lights on Julian?
I'll be wrong, waking the whole house up
