L.O.S.E.R.

Slapshot

15 years and this is all you've got
You didn't listen to a word we said
All your talk is bullshit it's obvious to me
I look around and see our scene is deadI'm not on some nostalgia trip
The old school means shit to me
Don't try to compare what you've got now
To anything I live1995 there's nothing new
It's been the same since 1982
Stage diving everywhere I turn
I've been screaming 13 years I'll never learnNothing like we've had before
You worship assholes from New York
Little crews with smaller minds
Why should I waste my timeI don't want it you can have it!
I got a new name for you it's L.O.S.E.R.I don't want it you can have it!
I got a new name for you it's L.O.S.E.R.I'm not on some nostalgia trip
The old school means shit to me
Little crews with smaller minds
Why should I waste my time
