

# Facedancer

## Golden Earring

From the Album:

\* To the hilt  
Not too serious  
Take that frown off your face  
I'll get furious  
Baby I'd like to see a change of looks  
Gimme pleasure  
You look good when you smile  
(that's better)  
Say actress  
Don't you wanna do  
The things I like best  
Facedancer magic eyes  
That burn with passion and fake surprise  
Every time you call the tune  
You get your way just a little too soon  
Aggressive mask on request.  
Sure to start another bad fight  
On the surface tigress  
But on the inside baby, you're a lullaby.  
I'm gonna lose you  
To some photographer  
You'll be abused  
You know he's bound to get your act uncovered  
The games' brutal  
They're low on scruples.  
But I'll be waitin'  
I'll be here when your features are failin'
