This Is Mine

Haystak, Young Buck

No more wasting time, synchronize
Tell them this is mine
No more wasting time
Tell them this is mineDon't walk the other way
Tell me you will stay
Just give me one more daySo give up, I'm going on
If you stop, it won't change
One of us has lost the feeling
Which of us is not believing now?You can have it all, I don't need it
Tell them this is mine, wanting is no crime
Happens all the time, when it gets you down
Rise and leave it, tell them this is mine
Push away the stone, we are not aloneLook into my eyes
And together we will rise
Above all we've seen
We will realize, synchronizeTell them this is mine
Tell them this is mine
Wanting is no crime
Happens all the timeHold, touch this hand of mine
Come away and find
What we left behindSo move up, we're going on
To the top, we'll take it one by one
We've got the feeling
Which of us is not believing now?You can have it all, I don't need it
Tell them this is mine, wanting is no crime
Happens all the time, when it gets you down
Rise and leave it, tell them this is mine
