1990s

I'll turn you on and switch you right off  
I'll make sure you got what you see  
Forget all that you once believed  
Now you will believe in me  
Do you believe you make the choice  
Decide what you hold most, dear?  
In all opinions that you voice  
It's my voice that all hear  
I'll take your ideas and your values  
I'll make you turn them all around  
I'll break your individuality  
I'll take you down  
I'll seal, shut your open eyes  
I'll give you a taste of the bland  
Intoxicate you, take me in  
You'll never feel the touch of my hand  
I'll take your ideas and your values  
I'll make you turn them all around  
I'll break your individuality  
I'll take you down  
I'll turn your on and switch you right off  
I'll soothe your troubled mind  
You'll never have to think again  
It's just a matter of lost time  
I'll take your ideas and your values  
I'll make you turn them all around  
I'll break your individuality  
I'll take you down, I'll take you down  
I'll take you down
