

Fernet Tastes Good

Los Coming Soon

I have been waiting night and day and didn't see the time
Oh I, waited half my life for you to come, oh I. But go if you want to go, I could kill you
Just go anywhere you want, could kill you
Just go, if you want to go, I could kill you
Just go, anywhere you... Jesus I am waiting for the miracle. I'll do anything, if you carry on
(Too late) I know I must have hurt you but is...
(So late) I know I must have hurt your pride
(You're late) I'm waiting for the miracle to sweep away the tears
But you're gone. I have been waiting night and day and didn't see the time
Oh I, waited half my life for you to come, Oh I. But go if you want to go, I could kill you
Just go anywhere you want, could kill you
Just go if you want to go, I could kill you
Just go, anywhere you...
This always happens when Fernet is gone...
I'll do anything if you carry on. The sands of time falls through
And you were waiting for me to come
This always happens when Fernet is gone
I'll do anything If you carry on.
