Symbiotic

Crown The Lost

Symbiotic, conceived in fire
Panic strike, I cannot breathe
Piercing me, conscience deepConsuming like embrace
This heat, like love complete in me
To see what I could not see
To see what I could not seeThis life inside, symbiotic
Conceived in fire
This life inside, symbiotic
Conceived in fireAmniotic suspension, heart rate rhythmic
Surrounded by sound
Blood nourished, blood nourishedThis union by love destroys the pain
And changes everything
This union by love destroys the pain
And changes everythingThis life inside, symbiotic
Conceived in fire
This life inside, symbiotic
Conceived in fireWaves of emotion, left to defeat
Consuming fire by [Incomprehensible]
This union by love destroys the pain
This union by love changes everythingThis life inside conceived in fire
This life inside conceived in fire
Symbiotic, symbiotic, symbiotic, symbiotic
Symbiotic, symbiotic, symbiotic
