In The Rain

Estelle

Ha, this remind me of summer
I?m talking ?bout an English summer
You know where it rains all night long
Yeah, but this reminds me of you
We don?t need to be just a memory
If you wanna flow I?ll walk away
It was last love, not the first time for you to notice me
?Cos you had yours and I had mine it still wouldn?t find to see
If it makes sense, I would make sense when you put your lips on me
And the feeling, get to feel this like this was meant to be
Nah, but apparently you only get one chance
And I, this is something I may want to last
But we both got other things we got to do
And then that don?t stop this girl from feeling you
Loving in the rain ?til the sun comes out all night long
Loving in the rain ?til the sun comes out all night long
Loving in the rain ?til the sun comes out all night long
We don?t need to be just a memory
If you wanna flow I?ll walk away
But this is nothing but the real that I speak to you
Feel how I feel for you, nothing?s quite real but you
I?m changing up my expectations
This ain't changing my person, oh it?s just relations
And uh, I tried to tell me that a couple times
But you seemed to get into my heart and write a rhyme
And you, a future with a capital F
And I wonder how I got into this beautiful mess
Now I, now this is something I would never do
But you color my heart in different shades of you
I guess we, we just gotta see where this will go
I know if you?re willing I?m gonna wait for you
To go with me, for to you to go with me
Loving in the rain ?til the sun comes out all night long
Loving in the rain ?til the sun comes out all night long
Loving in the rain ?til the sun comes out all night long
We don?t need to be just a memory
If you wanna flow I?ll walk away
This could take a whole lotta time
'Cos I feel your love in oh so many ways with you

We could be together in the rain
You and me together, okay you and me together
Oh baby I?m gonna wait to go out in the rain
Loving in the rain ?til the sun comes out all night long
Loving in the rain ?til the sun comes out all night long
Loving in the rain ?til the sun comes out all night long
We don?t need to be just a memory
If you wanna flow I?ll walk away
Loving in the rain ?til the sun comes out all night long
Loving in the rain ?til the sun comes out all night long
Loving in the rain ?til the sun comes out all night long
We don?t need to be just a memory
If you wanna flow I?ll walk away
Loving in the rain, leave your girl
All night long, I?ll leave my man
Loving in the rain, we don?t need no friends
All night long, just hold my hand
Loving in the rain ?til the sun comes out all night long
We don?t need to be, just a memory
If you wanna go I?ll walk away
