

# Unrequited

## Housman's Athletes

I never knew exactly what it takes  
I expected hearts to break  
and i never want them to  
just push myself on you

And when i make always said always been through  
still a far i see in you  
I've complete now I have you  
to let me hold on through

Your life, your right, you smile and your love  
your brightness from above  
and telling to us to  
I love to be with you

I could never be in love  
until knowing you  
I could never be in love  
with anyone but you

I never knew that my heart could shake  
with every step you take  
this conering errors are true  
to completely loving you

And when i make always said always been through  
still a far i see in you  
I've complete now I have you  
to let me hold on through

Your life, your right, you smile and your love  
your brightness from above  
and telling to us to  
I love to be with you

I could never be in love  
until knowing you  
I could never be in love  
with anyone but you

How could I deserve  
anything i spill it for last you

[guitar solo]

I could never be in love  
until knowing you  
I could never be in love  
with anyone but you

This time or last time,  
for the rest of my can't live without you  
(x4)
