Colony House

There's so much tension you hold
I couldn't get it
But there's a push to unfold
Don't barricade it
Tell me how you feel
Tell me how you feel
Tell me how you feel
Tell me how you feel We've got emotional ways
We overthink it
I act like this, you act like shh
Don't complicate it
Tell me how you feel
Tell me how you feel
Tell me how you feel Tell me you feel what I'm feeling
Let me know I'm not alone
If there's breath in our lungs
Let's keep breathing
Because we've still got a ways to go
I've got nothing but love for the dreamers
Nothing but heart for the cold
This one's not for the overachievers
Don't stop to warm our soul Tell me how you feel
Tell me how you feel
Tell me how you feel
Tell me how you feel Don't stop if it feels right
Tell me you feel what I'm feeling
Let me know I'm not alone
If there's breath in our lungs
Let's keep breathing
Because we've still got a ways to go
I've got nothing but love for the dreamers
Nothing but heart for the cold
This one's not for the overachievers
But don't stop to warm our soul Warm our soul
Warm our soul
Warm our soul
Warm our soul
Warm our soul
