Closer

Slum Village

There's somethin' I wanted to know
Can we get closer? Yeah, baby
Seems like I've waited to know
Can we get closer?Girl you should come up for the week
I'll make you cum from the tub to the sink
Rubbin' your feet in a luxury suit
Make sure you come with nothin' on just a long shearlin'
And I'ma make ya toes curl up like they are earlin'I'll whisper in your ear, tell ya something
Stick my tongue in ya bellybutton
Reach down below, ya know I'm well sprung
Hit ya from the back to get ya calfs tremblin'
And pull ya hair 'til it's straight, you'll look half IndianLaughing, giggling with champagne bubbles tickle ya nose
Before you I wouldn't throw my old nickels at hoe's
I'm just glad we can get close, for breakfast in the mornin'
We can fly out to Paris France for the French toastYou made me wait so long and that's a good thing
Now let me make ya candy rain' dampen your thong
I hit it off like a champion strong, for real
Your still bumpin' and grindin' even after the song but all along I, IThere's somethin' I wanted to know
Can we get closer? Yeah, baby
Seems like I've waited to know
Can we get closer?Let me talk to ya, feel me for a sec
I love ya sassy ways I must confess
Ya lookin' good girl, I hope you into sex
Sort of a model type with a splash of innocenceYa fast charms, ass like ya mums
I love that Tiffany charm thats hangin' from ya arm
And if we get it on I'ma take her back to the fort
Show her how I run game like an athlete in sportSweety I can see that money ain't a thing
Been doin' this for a while no need to explain it
Ya doin' swell girl, ya never doin' poorly
Ya know I'm hoppin' in whips just look at the jewelryPlus you need a man in your life
Yo, someone who can hit it right, and plus got the right doe
Plus I'll treat you like a queen
Yo your place or mine I was thinkin' we should get closeThere's somethin' I wanted to know
Can we get closer? Yeah, baby
Seems like I've waited to know
Can we get closer?A lot of cats have tried it
I like to touch the na na, I
I know u act real shy but

Know you get downYou are not that type we go
Just keep it low and let it go
No need to act up 'cause, I
Know you get downCan we get closer tonight
I'll make you cry
Touch you inside baby, I
Make you get downHold you very close
With or without clothes
Public or closed doors
We will get closer, yeahThere's somethin' I wanted to know
Can we get closer? Yeah, baby
Seems like I've waited to know
Can we get closer?There's somethin' I wanted to know
Can we get closer? Yeah, baby
Seems like I've waited to know
Can we get closer?
