

Take Me Out (Of Myself)

Jamie Cullum, Tom Richards

There was an age the battered times
were coiled up around you like a diamond cage
Though your sparkle 's long resigned
It flickers like the embers of a dying blaze
These might be the last days of the blinding lights
So you and me should go and get so high tonight

[Chorus: x2]

We crossed the line so many times
It's nothing more than chalk wiped off a darkened wall
Speeding through those crystal nights
Clearly punctuated by some bloody falls
What used to seem so magical now seems so trite
So one more time lets go and get so high tonight

[Chorus: x2]

You and me should go and get so high tonight
You and me should go and get so high tonight

[Chorus: x2]

Just like everyone else
