

# Everything Dies

## Satanochio

Well I loved my aunt, but she died  
And my uncle Lou, then he died  
I'm searchin' for somethin' which can't be found, but I'm hopin'  
I still dream of dad, though he died  
Everything dies, everything dies  
My Ma's so sick, she might die  
Though my girl's quite fit, she will die  
Still lookin' for someone who was around, barely coping  
Now I hate myself, wish I'd die  
Everything dies, everything dies

Everything dies, everything  
No why? Oh God, I miss you  
No why? Oh God, I miss you, I really miss you  
No, no, no, no  
No why? Oh God, I miss you  
No why? Oh God, I miss you, I really miss you  
Everything dies, everything dies  
Everything dies, everything  
No, no, no, no  
Everything dies, everything dies  
Everything
