Time Bomb

Annihilator

In the year 2027, mankind had created an ultimate killing machine
But this machine was to turn against his own creators
And destroy all the human life on earth
It was the end, annihilation, hell was nearCondition critical, condition grave
Target invincible, target insane
Built to terminate, built to kill
To crush it's victims, destroy at will, yeahA plague of agony of sacrifice
(Of sacrifice)
Bodies, they multiply, deadly device
(Deadly device)
Creation time bomb, condition red
(Condition red)
Unholy overkill, one billion deadDie
(Screaming)
Die
(Bleeding)
Die
(Pleading)
DieCondition critical, condition grave
Targets invincible, targets insane
Creation time bomb, condition red
Unholy overkill, one billion dead
One billion dead
