

A Place Called Love

Johnny Reid

Mothers and daughters,
Fathers and sons,
Sisters and brothers,
Everyone,
Do you believe,
In a place called love
I have seen,
The human heart,
Be the light,
In the darkest dark,
I believe in a place called love
A place called love,
A place called love,
I believe in a place called love
I have felt an angel near,
She helped me dry, a lonely tear,

I believe in a place called love
A place called love,
A place called love,
I believe in a place called love
A place called love,
A place called love,
I believe in a place called love
There's been times,
I've had my doubts,
A little Faith always helped me out
I believe in a place called love
So let me ask you
Mothers and daughters,
Fathers and sons,
Sisters and brothers,
Everyone,
Do you believe in a place called love?
