

Shape Shifter

Local Natives

My king, I'm humbled before you
I bow
Moods like you're pulled by the moonlight
SomehowHow is the language we're speaking
The same?
Shape shifter, have you discovered
A change?Why does the soul hallucinate?
I've got control, I shift my shapeYour eyes they swell like a riot
Deranged
Tomorrow you're laughing like a child
AgainWhy does the soul hallucinate?
I've got control, I shift my shape
If flesh and bone do not contain
The mirrors don't reflect my facePsycho, you killer, you cancer
My friend
Why don't you give me an answer
For when?When you'll let it go
When you'll let it go
When you'll let it go
When you'll let it goWhy does the soul hallucinate?
I've got control, I shift my shape
If flesh and bone do not contain
The mirrors don't reflect my face
