## **Shape Shifter**

## **Local Natives**

My king, I'm humbled before you I bow

Moods like you're pulled by the moonlight SomehowHow is the language we're speaking

The same?

Shape shifter, have you discovered A change? Why does the soul hallucinate?

I've got control, I shift my shapeYour eyes they swell like a riot

Deranged

Tomorrow you're laughing like a child

AgainWhy does the soul hallucinate?

I've got control, I shift my shape

If flesh and bone do not contain

The mirrors don't reflect my facePsycho, you killer, you cancer

My friend

Why don't you give me an answer For when? When you'll let it go

When you'll let it go

When you'll let it go

When you'll let it goWhy does the soul hallucinate?

I've got control, I shift my shape

If flesh and bone do not contain

The mirrors don't reflect my face
