

Back of My Mind (featuring Rai Thistlethwayte)

Jamie McDell

Livin' for the love and take it and no there's no danger
Forget the drugs I got the high
Asking people to accept this stranger
Hoping they can keep me safe tonight In the front seat I see nothing but blue
I got two weeks drivin' me crazy
It's a white heat sexy feet on top of the roof
and I know really can't be complainin' In the back of my mind I'm always thinkin' about you
I really want to see you baby
Cos the back in your mind is just your heart in reveal
Forget about the street signs
and find the truth
Waiting on the road that I read this morning's paper
Hearing that the ground is shakin' on
And I get the feeling you could use it savior
And I know I've been away for too long In the front seat I see nothing but blue
I've got two weeks drivin' me crazy
It's a white heat sexy feet on top of the roof
and I know really can't be complainin' In the back of my mind I'm always thinkin' about you
I really want to see you baby
Cos the back in your mind is just your heart in reveal
Forget about the street signs
and find the truth I know I don't need you knew you wanted to we were
I know I just need to see your face tonight
In the back of my mind I'm always thinkin' about you
I really want to see you baby
Cos the back in your mind is just your heart in reveal
Forget about the street signs In the back of my mind I'm always thinkin' about you
I really want to see you baby
Cos the back in your mind is just your heart in reveal
Forget about the street signs
and find the truth
