World Wake Up

Gov't Mule

Polarized, hypnotized
World wake up
Evaluate
Communicate today
Poverty, sovereignty, world wake up
Its all vanity, insanity todayAsk ourselves, do we know ourselves
If not now, when
Its as though theres no end
To the problems raining on our heads
Overfilling our cups
World wake upPartisan
Art is done
World wake up
We need harmony, unity today
Remind ourselves to find ourselves
Better start today
If we dont, theres no way
To rewrite the story with a better end
One thats not so abrupt
World wake upLogic fails
Greed prevails
World wake up
Communicate
Its not too late, today
