Visions (Southern Cross)

Stratovarius

I have seen the future of mankind
The wisdom of my prophecies you'll find
Follow the truth and be careful
Are we the last?Hundred years has passed what have we done
Inconceivable damage under the sun
I think it's too late to change the man
We are the lastWorld keeps turning while people yearn for more
Mother nature is crying for a change
Time will come when we all must pay for what
We have done, are you prepared for that?As we are reaching the end
Of the century there's message we can send
Be strong and bold and never lose your mind
'Cause we are the lastWorld keeps turning while people yearn for more
Mother nature is crying for a change
Time will come when we all must pay for what
We have done, are you prepared for that?The signs of the end I see
Let them hear my voice in every corner of the world
Take heed of the warnings that I give
I have seen the southern cross forming in the skyThere shall be heard in the air the noise of weapons
And in the same year the divines shall be enemies
They shall unjustly put down the holy laws
And by thunder and war true believers shall die(Nostradamus: Century IV:43)
For forty years the rainbow shall not appear
For forty years it shall be seen every day
The parched earth shall wax drier every dayAnd a great flood when it shall appear
(Nostradamus: Century I:17)
After us the road goes on forever
Many changes lie along the pathThat's the price we pay for our selfishness
We are headed for the end
From the skies shall come the powerful kind
Before and after the Mars reigns at willNot far from the great age of millennium
Buried ones shall come out of their graves
(Nostradamus: Century X:72,74)
When the comet tears out the skyYou and I must die
After all this the time will come for the chosen ones
To rise from their graves to be free again
The beast is gone forever there's no more painInstead so many things for us to attain
The sun is shining brightly after the rain
The land is green and full of life again

The sorrows wiped away nowIt's time to smile
And learn from the past
Together we will try
Twenty years of reign of the moon having pastSeven thousand years another shall hold his monarchy
When the sun shall resume his days past
Then is fulfilled and ends my prophecy
(Nostradamus: Century I:48)
