

# Nothing Like L.a.

## Ice Cube

I can show you the pawls and bawls, the Taj Mahal  
To the strip in M.I.A  
I can show you the waterfalls in Spain and Prague  
To the beaches in Tropez  
I can show you the world, girl, the world, girl  
But ain't nothin' else like LA  
I can show you the world, girl, the world, girl  
But ain't nothin' else like LA  
Nothin' like LA  
(When they come to LA)  
They got the wrong impression  
(When they come to LA)  
They got to learn their lesson  
(When they come to West Coast)  
It's such an obsession  
(When they come to play it out)  
I'm just an exception  
When I come to you, girl, I need your affection  
Every time you walk by, you get my inspection  
And all you gotta do now is make your selection  
And it won't be hard to win this election  
I can show you the pawls and bawls, the Taj Mahal  
To the strip in M.I.A  
I can show you the waterfalls in Spain and Prague  
To the beaches in Tropez  
I can show you the world, girl, the world, girl  
But ain't nothin' else like LA  
I can show you the world, girl, the world, girl  
But ain't nothin' else like LA  
Nothin' like LA  
I done been around the world, I ain't impress  
I can't wait 'til we hit LAX  
Tokyo is cool, yeah, I feel the U.K.  
But can nothin' fuck with California-A  
Especially LA and I'm feelin' the bay  
But nothin' like rollin' down PCH  
Top down, west bound, it's all good  
You don't go Hollywood when you from Hollywood  
Let's go to the hood and fuck with the haters

Then to the Staples Center and hang with the Lakers  
Number 6 is cool but 24 is the champ  
And even D. Wade and Chris Bosh know that  
I can show you the pawls and bawls, the Taj Mahal  
To the strip in M.I.A  
I can show you the waterfalls in Spain and Prague  
To the beaches in Tropez  
I can show you the world, girl, the world, girl  
But ain't nothin' else like LA  
I can show you the world, girl, the world, girl  
But ain't nothin' else like LA  
Nothin' like LA  
The BET awards and even the Grammys  
They always pick LA over Miami  
I love Miami, I ain't dissin' Miami  
But where would you rather get robbed for your Grammy?  
Ain't nothin' like Sunset Boulevard  
Compton and watch if you wanna be hard  
We got it all, what you thought not at all  
If you sick of this shit then take a Tylenol  
It's just me and my woman verses all of ya'll  
And we takin' a bow for our curtain call  
The angels is lost, they don't wanna be found  
If God is lookin' for 'em, I can show Him around  
I can show you the pawls and bawls, the Taj Mahal  
To the strip in M.I.A  
I can show you the waterfalls in Spain and Prague  
To the beaches in Tropez  
I can show you the world, girl, the world, girl  
But ain't nothin' else like LA  
I can show you the world, girl, the world, girl  
But ain't nothin' else like LA  
Nothin' like LA
