

# North Country Girl

[Pete Townshend](#)

When you travel to the green hills of Ayr  
Where the sea breaks windows on the border line  
Remember me to a girl who lives there  
For she once was a true love of mine Please see for me that her red hair is long  
And flows and curls down her back and breast  
Please see for me that her red hair is long  
For that's the way I remember her the best North Country girl, ooh  
North Country girl, ooh  
North Country girl, ooh  
North Country girl, ooh See that she's warm when the summer ends  
When trees are bare and the rivers freeze  
She washes clothes where the river bends  
She's working on her knees See for me that her coat's pulled up close  
And her beret frames her sweet pretty face  
See that she's warm and drink her a toast  
For I am exiled in a lonely place Please let me know if she remembers me at all  
A hundred times I've hoped and prayed  
That way up there near the Roman Wall  
She didn't suffer when the fall had sprayed North Country girl, ooh  
North Country girl, ooh  
North Country girl, ooh  
North Country girl, ooh
