Divorce

Quicksand

I know just what you're thinking
You want someone to blame
I know you well 'cause, I always feel the sameWe always look behind
We always look behind
Day in, day outThe world is my witness
Sick from my culture sickness
Wish it would go away, you feel the same?We always look behind
We always look behind
I want to slow my mind
DownSomething tells me
It's my cross to bear
You can't reach me, you were never thereIt's like water
Under a bridge now
I've looked a thousand timesWe always look behind
We always look behind
Day in, day out
