

Two In A Million

S Club 7

Oh hoh

Woo

Out of all the boys you're not like the others

From the very first day I knew we'd be lovers

In my wildest dreams, my darkest desire

Would I declare to you your love takes me higher (aah)

Just when we both thought our lives were set in stone

They shone a light and brought us together (ooh) We are two in a million

We've got all the luck we could be given

If the world (the world) should stop (should stop)

We'll still have each other

And no matter what (no matter what) we'll be forever as one It's a crazy world where everything's changing

One minute you're up and the next thing you're breaking (yay)

When I lose my way and the skies they get heavy

It'll be okay the moment you're with me

No one would have guessed we'd be standing strong today

Solid as a rock and perfect in every way We are two in a million

We've got all the luck (the luck) we could be given

If the world should stop we'll still have each other

And no matter what (no matter) what (no matter what)

We'll be forever as one

Forever as one
