

The Best Thing

Relient K

Its been a year
Filled with problems
But now you're here
Almost as if to solve them
And I can't live
In a world without you now All my life
I've been searching for you
How did I survive
In this world before you?
'Cause I don't want to live
Another day without you now This is the best thing
The best thing that could be happening
And I think you would agree
The best thing is that it's happening to you and me All I want to have
Is all that you can give me
And I'll give right back
Everything I have in me
'Cause nothing ever felt as right
As this does right now I'll go back
To before we met
Try and erase the past
Try harder to forget
'Cause nothing will ever be as good
As here and now 'Cause when I looked into your eyes
And you dared to stare right back
You should've said, "Nice to meet you
I'm your other half" This is the best thing
The best thing that could be happening
And I think you would agree
The best thing is that it's happening This is the best thing
(The best thing)
The best thing that could be happening
(The best thing) And I think you would agree
The best thing is that it's happening to you and me
The best thing is that it's happening to you and me I always knew I'd find someone
I never dreamt it'd be like this
'Cause you've surpassed
All that I'd hoped for and ever wished And I'm trying so hard
With all my heart and mind

To make your life as good
As you've made mine This is the best thing
(The best thing)
The best thing that could be happening
(The best thing) And I think you would agree
The best thing is that it's happening to you and me
The best thing is that it's happening to you and me
The best thing is that it's happening to you and me (The best thing)
The best thing that could be happening
(The best thing)
And I think you would agree
The best thing is that it's happening to me
