

Who Do You Think Of?

M.O

Who do you think of when you're lonely?
Who do you think of when you're lonely?
Lonely, lonely, lonely
Lonely, lonely, lonely Every time you want it, you calling off my phone
But I don't even answer, need some time alone
No matter what happens, I never go too far
I always come right back, always come to where you are 'Cause every time I leave
Every time, every time I leave yeah
It's like you know I'll be
It's like you know, it's like you know I'll be there 'Cause every time I leave
Every time, every time I leave yeah
It's like you know I'll be
It's like you know, it's like you know I'll be there Who do you think of when you're lonely?
Who do you think of when you're lonely?
Lonely, lonely, lonely
Lonely, lonely, lonely So tell me, who do you, who do you think of?
Who do you, who do you think of?
Who do you, who do you think of?
When you're lonely So tell me, who do you, who do you think of?
Who do you, who do you think of?
Who do you, who do you think of?
When you're lonely Only we know about the games that we both play
And the things that you do to make me stay
Maybe we only fight 'cause we like to make it right yeah
So next time we're arguing, I'm coming right back tonight 'Cause every time I leave
Every time, every time I leave yeah
It's like you know I'll be
It's like you know, it's like you know I'll be there 'Cause every time I leave
Every time, every time I leave yeah
It's like you know I'll be
It's like you know, it's like you know I'll be there Who do you think of when you're lonely?
Who do you think of when you're lonely?
Lonely, lonely, lonely
Lonely, lonely, lonely So tell me, who do you, who do you think of?
Who do you, who do you think of?
Who do you, who do you think of?
When you're lonely So tell me, who do you, who do you think of?
Who do you, who do you think of?
Who do you, who do you think of?

When you're lonely'Cause when you call I'm there
You know I'll always be on my way
On time, yeahSo tell me, who do you, who do ya
Call I'm there
You know I'll always be on my way
On time, yeah
I always know when you're lonely
When you call I'm there
You know I'll always be on my way
On time, yeahSo tell me, who do you, who do yaWho do you think of when you're lonely?
Who do you think of when you're lonely?
Lonely, lonely, lonely
Lonely, lonely, lonelySo tell me, who do you, who do you think of?
Who do you, who do you think of?
Who do you, who do you think of?
When you're lonelySo tell me, who do you, who do you think of?
Who do you, who do you think of?
Who do you, who do you think of?
When you're lonely
