Well, All Right

The Trashmen

Well all right, so I've been foolish
Well, all right let people know
About the dreams and wishes you wish
In the night when the lights are low
Well all right, well all right
And oh I live and love with all my might
Well all right, well all right
And oh I gotta find love just to be all right
Well all right, we're rocking steady
Well all right that people say
That the foolish kids can't be ready
For the love that comes their way
Well all right, well all right
Oh I live and love with all my might
Well all right, well all right
Oh I gotta find love just to be all right
So we're rocking steady
Well all right that people say
That the foolish kids can't be ready
For the love that comes their way
Well all right, well all right
Oh I live and love with all my might
Well all right, well all right
And oh I gotta find love just to be all right
Well all right, well all right
Well all right, well all right
Well all right, well all right
Well all right, well all right
