

It's Dark

The Baboons

Going down going down the dark ride
Going down there ain't no turning back
It's getting dark and big dogs are barking
Wolves howl and shadows are talking
Broken glass rear bladed dagger
Black shades he looks like the devil

It's dark my hands are sweating
Cold sweat branches are cracking
Soft sheet of darkness covers me
A dark night this is where I wanna be

Broken glass rare blades dagger
Black shades this is where I wanna be

Lead

Dark night rain is pouring
High tide rivers over flowing
Going down got enough to ride back
Going down there ain't no turning back

Broken glass rare bladed dagger
Black shades he looks like the devil

Black shades he looks like the devil

End
