Open Up Your Eyes

Flickerstick

Open up your eyes and see
There's nothing she can do
To get away
Running faster than before
Chasing what you never got to say
She's the one that's always high
Nothing's good enough to make her stay
We are the ones that tear you down
We are the ones that are gonna be breaking out
Breaking out
Open up my eyes and see
There's nothing I can do
To do get away
Running faster than before
And chasing what I never got to say
I'm the one that's always high
Nothing's good enough to make me stay

We are the ones that tear you down
We are the ones that are gonna be breaking out
Breaking out
We are the ones that tear you down
We are the ones that are gonna be breaking out
Breaking out
Just for you...
(what if I would've died)
Just for you...
We are the ones that tear you down
We are the ones that are gonna be breaking out
Breaking out
We are the ones that tear you down
We are the ones that are gonna be breaking out
Breaking out
We are the ones
We are the ones
We are the ones
