

# Tender Things

**Bill Withers**

Sweet and tender things  
Are so much nicer than silly games  
Softness makes it easier to smile

It's better to remember things  
That makes the sun shine in your memory  
There's clouds enough for you to see  
Smile for me and take a look around

And you know that you're in love  
When things are better than you thought they'd ever be
