My Way of Giving

Small Faces

I've been told it's just a matter of time
Before you meet someone who opens your eyes
But time's on my side so nevertheless
I know the pain of too much tendernessIt's all part of my way of giving
And I'm giving it all to you
More than love, it's a way of living
So what more would you have me doAlthough I'm not a guy that means to hurt
And if at times it seems our love won't work
I tell you honey, you must realize
And see all confusion in my cloudy eyesIt's all part of my way of giving
And I'm giving it all to you
More than love, it's a way of living
So what more would you have me doIt's all part of my way of giving
And I'm giving it all to you
More than love, it's a way of living
And it's me that you're looking through
