All Pain Is Gone (Rapid Ascent Mix)

Combichrist

Stuck in a hole, enslaved by emptiness
Fist clenched tight, though I'm not alone
They're always here, controlling my thoughts
Every sense, every sound, every image, abstractThey're all around, watching me die
Free will, obsolete, intention unknown
This is the day, the day I'll try
'Cause this is the day, the day I dieThis is the day, the day I die
All pain undone, all pain is goneCome, set me free, all pain is gone
Come, set me free, all pain is gone
All pain undone, all pain is gone
Come, set me free, all pain is goneAnd it's never enough, the story never ends
A chapter is closed, another one's revealed
Razor blade love, I can taste the peace
Another day gone, another chapter completeThey're all alone, watching me die
Free will, obsolete, intention unknown
This is the day, the day I'll try
'Cause this is the day, the day I dieCome, set me free, all pain is gone
Come, set me free, all pain is gone
All pain undone, all pain is gone
Come, set me free, all pain is gone'Cause this is the day, the day I'll try
'Cause this is the day, the day I dieCome, set me free, all pain is gone
Come, set me free, all pain is gone
All pain undone, all pain is gone
Come, set me free, all pain is gone'Cause this is the day, the day I die
All pain undone, all pain is gone
'Cause this is the day, the day I die
Come, set me free, all pain is gone
