

Find Me (Intro)

XXXTENTACION

Where were you again?
Somewhere with a friend
I was in my head, I'm lost again, again
She turned around and said, that I was like the rest
That I don't understand the way it is, to her Where were you again?
Where were you again?
Where were you again?
Where were you again? Where were you again?
Somewhere with a friend
I was in my head, I'm lost again, again
She turned around and said, that I was like the rest
That I don't understand the way it is, to her
Where were you again?
Where were you again?
Where were you again?
Where were you again?
