

# Precious Love

Emmylou Harris

Love can lift you, like a feather  
Love can drop you like a stone  
It can heal you, make you better  
It can cut you to the bone  
Love's a new song to a young girl  
Love's an old song when you're old  
It can be your sweet companion  
Love can leave you all alone  
Precious love where are you hiding  
Precious love where did you go  
Tell me why you left me dying  
Like a fire in the snow  
Like a boat upon the ocean  
Like a leave upon the breeze  
Love can lift you, take you higher  
Love can bring you to your knees  
Precious love where are you hiding  
Precious love where did you go  
Tell me why you left me dying  
Like a fire in the snow.
