

Take My Hand

We Are Forever

You don't believe me when I tell you that I'm fine
But honestly I don't know what I feel inside
you never thought that we could leave this place behind
but things will get better
yeah things will get better

Take my hand
We could have this one last dance
take my heart
we could feel this from the start
like I never had before

and let's pretend that I'm not really leaving
when all of these dreams were always falling back asleep
because these things were make-believe
so I'll sit back and watch you you sing goodbye
to every single little thing you said

Take my hand
We could have this one last dance
take my heart
we could feel this from the start
like I never had before

This is not what we asked for
but it's really what we need
all goodbyes were meant forever
but I'm not ready to leave
x2

Take my hand
We could have this one last dance

Take my hand
we could have this one last dance
take my heart
we could feel this from the start
like I never had before
x3

You don't believe me when I tell you that I'm fine
But honestly I don't know what I feel inside
you never thought that we could leave this place behind
but things will get better
yeah things will get better

You don't believe me when I tell you that I'm fine
but honestly I don't know what I feel inside
