

It's My Own Fault

John Lee Hooker

It's my own fault, darlin', that you treat me the way you do

It's my own fault, darlin', caused you treat me the way you do

When you left me, darlin', I was callin' from town to townOh, won't you give me one more chance?

Oh, baby, won't you give me one more chance?

Baby, I'll prove that I'm in love with you; you know I'll be travelin' no moreIt's my own fault, darlin'--I made
you treat me the way you do

It's my own fault, darlin'--I made you treat me the way you do

Baby, I go alone; I just realized all I didOh, goodbye, baby; I know we may never meet again

Oh, goodbye, baby; I know we may never meet again

But it's my own fault, darlin'--I made you treat me the way you did
