

Dream In Green

Gustafer Yellowgold

When I sleep, Iâ€™m in the leaves
In grass, in tops of trees
I only dream in green

You should have seen, This car I made
Out of emerald steel, crystal jade
I only dream in green

Itâ€™s the only thing that is free
So dream in green next to me

Green-apple moon, she really shines
Every star is a tiny lime
I only dream in green

Thereâ€™s no need to envy me
I got room for everyone, in these evergreens

Itâ€™s the only thing that is free
So dream in green next to me

I know this is naÃ¯ve
But picture the future
Where we all could dream in green
