

# Dormant Bodies Bursting

## Cannibal Corpse

Bodies are bursting apart  
Volcanic eruption of guts  
Exploding cadavers bring forth  
A bloodbath to torment all lifeThe sky and the earth are now tainted by blood  
Death is to blame for this enormous flood  
The bodies are bursting apart  
Volcanic eruption of gutsDetonate, polluted, pandemic  
Unburied decedents that no longer die  
Dispelled amok amongst sickness  
The dead and living are one  
When dormant bodies are burstingThe sky and the earth are now tainted by blood  
Death is to blame for this enormous flood  
The bodies are bursting apart  
Volcanic eruption of gutsInfernal, disaster, revulsion  
Dormant bodies burstingBodies are bursting apart  
Volcanic eruption of guts  
Exploding cadavers bring forth  
A bloodbath to torment all lifeThe sky and the earth are now tainted by blood  
Death is to blame for this enormous flood  
The bodies are bursting apart  
Volcanic eruption of gutsDetonate, polluted, pandemic
