Clockwork Dream

Deadly Nightshade Botanical Society

I lie in wait
my wings in shreds
your science a saviour
only you can
make me live again

Teach me how to fly
on a jet of steam
teach me how to hope
build a clockwork dream

coils and springs
I wait for release
assemble the parts
you can build my dream

teach me how to fly
on a jet of steam
teach me how to hope
build a clockwork dream

I can only be
what you make of me
I can only see
In colors you percieve
I can only be
what you make of me
I will always be
your clockwork dream
