Vapor

Jennifer Paige

I can take you down to everywhere I go
Never want to take you down that low
Been starin' out my window
Into negative space
On the pavement from the elevator
Down the cornershop to buy the paper
Had a premonition you would be there too
No way not today
It's just more bad newsCHORUS
I want to be vapor
Want to rise above the year
I want to be steamy
And dry up all my tears
Cause with my head in the clouds
I'd be light upon my heels
I want to be vapor
I want to be vapor
And disappear sometimesMy heart is heavy
I feel I'm sinking in
My sister tells me that I spread myself too thin
Feel like standing in a plaster mold of me
What I have is not contagious
I see a smile on a passing stranger
Think to follow them to see where they go all day
Wanna know how it is they get that wayCHORUS
I want to be vapor
Want to rise above the year
I want to be steamy
And dry up all my tears
Cause with my head in the clouds
I'd be light upon my heels
I want to be vapor
I want to be vapor
And disappear sometimesI want to be vapor sometimes, oh yeahI could take you down to everywhere I go
But I never want to take you down that low
Oh no Oh noCHORUS
I want to be vapor
Want to rise above the year
I want to be steamy

And dry up all my tears
Cause with my head in the clouds
I'd be light upon my heels
I want to be vapor
I want to be vapor
And disappear
I want to be vapor
I want to be vapor
And disappear sometimesI want to be vapor sometimes
I want to disappear
