

Us Against Them

Naked Aggression

Ahhhh! Fuck off Every single day I get more pissed off I protest in the street
and tell the government to fuck off They can call the troops out they can try
to lock me up That'll not stop me I'll fight until I die I will fight them
Don't give leaders control - Take back your life Don't give leaders control -
Take back your life I hate this fucking system, want to smash it to the ground
People following orders doing what they're told to do Not thinking for them-
selves, fitting into society's mold The leaders want us all this way, little
clones that they control The government is fighting a war against us They are
the true enemy, it's US AGAINST THEM, US AGAINST THEM, US AGAINST THEM, US
AGAINST THEM! Ahhhhhhh! Fuck off The entire world is a bloody mess People
getting killed by the governments that oppress I am sick of their shit, I
refuse to take it We outnumber them so let's take back our lives I will fight
them We can stop them Don't give leaders control - Take back your life! Don't
give leaders control - Take back your life! I hate this fucking system, I
want to burn it to the ground Don't listen to authority, they put lies in our
heads Since they can't control us, they want to see us dead The government is
fighting a war against us They are the true enemy, it's US AGAINST THEM, US
AGAINST THEM, US AGAINST THEM, US AGAINST THEM!
