

Sex On The Flag

Kmfdm

Discrete warhead, sleeping below
The wind that passes is heard no more
Trust only movement, talking split tongue
Don't be concerned with what's right and what's wrong
Lord is gracious to the chosen generation
Royal Priesthood of a holy nation
Zealous forces here and youth and bloom
But reason's finger is pointing at the tomb
Sex on the flag, give me respect or give me death
Sex on the flag, responsibility
Sex on the flag, you gotta have some fantasy
Sex on the flag, crack down and cry for me
Captive caption, indestructible cage
Silenced with fire, trembling with rage
Sacrifice beauty, finish your hand
I don't wanna be stuck without a spirit for the future
God is gracious to the chosen generation
Royal Priesthood of a holy nation
Zealous forces here and youth and bloom
But reason's finger is pointing at the tomb

Sex on the flag, give me respect or give me death
Sex on the flag, responsibility
Sex on the flag, you gotta have some fantasy
Sex on the flag, give me respect or give me death
Sex on the flag, give me respect or give me death
Sex on the flag, responsibility
Sex on the flag, you gotta have some fantasy
Sex on the flag, crack down and cry for me
Sex on the flag, give me respect or give me death
Sex on the flag, responsibility
Sex on the flag, you gotta have some fantasy
Sex on the flag, crack down and cry for me
Sex on the flag, crack down and cry for me
Sex on the flag, crack down and cry for me
Crack down and cry for me
Crack down and cry for me
Crack down and cry for me
Crack down and cry for me

Crack down and cry for me
Give me respect or give me death
