

Blood Is Thicker Than Water

Wyclef Jean featuring G&B (The Product)

You can be sure, I'll always do my best to never let you down
I know you won't let me down
You're the light that will never leave me
You light up my way
I can always count on you
And I swear
I will keep it close
Cause your love's the most precious thing that I've ever had
And I know you will do the same
Cause our friendship's what keeps us alive
I know you won't let me down
You're the light that will never leave me
You light up my way
I can always count on you
Let me say we are more than friends
Cause we are brothers and brothers are fucking blood
And brothers are a fucking family
Oh, I can't see our future
But I'm sure, yeah, that we'll be together

I swear
I will keep it close
Cause your love's the most precious thing that I've ever had
And I know you will do the same
Cause our friendship's what keeps us alive
I know you won't let me down
You're the light that will never leave me
You light up my way
I can always count on you
This is my love that will last forever
This is my love that will last forever
This is my love that will last forever
This is my love that will last forever
I know you won't let me down
You're the light that will never leave me
This is my love that will last forever
I know you won't let me down
You're the light that will never leave me

This is my love that will last forever
