Just walking along one day
The sun above
with the ocean spray
Not one worry not one doubt
I'm feeling nature
and what it's about
This beauty's real
the real deal
A place to heal
and to take away pain
To sing and dance
and laugh in the rain
It's so perfect
but something seems wrong
I hear da ocean's waves
rumbling too strong
Got to run got to flee
It's life or death
so I climb a near tall tree
What can I do nature's so great
Water kills and floods
but I can not hate
Man destroys and kills the Earth

Karmic revenge like birth

but in reverse

The power to destroy

is in us all

We gotta learn to give back

or we will fall

It only takes one thing

to change the world

Taking it back to the ways

of the boy and girl

The strength of the Earth

is everywhere

Help our mother

grow yo start to care

Take the 1st step

and open your eyes and see

This future change starts

with something as small

as you and me
