

So Lonely

Tech N9ne

[Mackenzie O'Guin]{Chorus}

So lonely(x8)

Yea when I came up I was famous and I stayed up

Now I'm way up people they just turn their hate up

[Tech N9ne]Been alone ever since i started to be an artist

I've been disregarded and i mean the hardest ever seen

I put em in the garbage to be departed when i spit this

Man he is wicked face comin up just like Stanly Ipkiss

But damn he is lifted where no familys listed

Plan to revisit that big planet he misses

But the land that he shifted twisted a bit cause man he resisted

To jam what he scripted calamity insanity with it

Like amedy pictures sickness hit banashed hes livid

So blow me witta bucket of hot phesis poured on me

Neva loved it now yall just be so phony

No homies woulda neva let bozeos with so so flows on me

When i said that it gets better its just bologna

Thats why NINA so lonely

[Mackenzie O'Guin]Chorus

[Tech N9ne]This my planet higher than yalls dammit

No laws and its raw candidates i made em all vanish

Vandalistic with this if man get his lips in this

Q uick damagin rip the bitch no bandages that fits he draws panic

From clones i spit it up and then they gone im livin up within my zone

No body left to win my throne try callin home but everybody is so monotone

Your gettin this why tech is all alone

[Blind Fury]Its so lonely up here aint non of my homies up here

Cause they feel like i chose a career over my peers

But i try ta tell em love dont pay bills

Of me spittin these freezin free writtin jus probably bust dont make mills

Tryna stay chill when alotta rappers lust and chase thrills

Fuck the fame and the thrills im maintaining it real

Straight up Fury aint no jury minus the change in thrill to me

You a lame if you aint been embracing the skill you see

Cause ive been in it for a minute and i aint gon go away

Yall keep them trash rappers but im the one yall throw away

The songs i make show the pain but this game aint too friendly

I cant take it no moe so sing it mackenzie and tell em why im..

[Mackenzie O'Guin]Chorus

Got everything that I wanted but it came witta price
Bought me a crib with my money but I gave it my life
Sometimes I stay up kinda late and I hate it at night
Every other day me and my lady we break up and fight

Thinkin you bringin that mentality into my galaxy is falsie for anybody to battle me

Realizing all I got is friends and family and after that aint no body to look after me so im proud to be

[Mackenzie O'Guin]Chorus
