

# Eponine

## Ozma

whoa my eponine, can't you hear the words i sing?  
can't you hear the words i sing?  
a crush can never be resolved  
seems like every resolution ends in tragedy  
singin' whoa, my eponine we swore we'd die to end this bolshevik  
and now it's time  
time to put an end to all your woe (whoa) my eponine, can't you hear the words i sing?  
can't you hear the words i sing? you can't just let this world revolve  
seems like every revolution ends in casualty singin' whoa oh oh oh my eponine before you go, just these last  
words for you  
i love you so  
and love can bring an end to all your woe (whoa) my eponine, can't you hear the words i sing?  
whoa my eponine, you can't just let this world revolve  
whoa my eponine, can't you hear the words?  
can't you hear these words?  
whoa my eponine, can't you hear the words i sing?
