Lassitude

Victor Noriega

You and I are molded into one
And I can't get enough
The future is within your sights
And it's the hope you feel inside
He's gonna be alright
It's alright
Alright (3x)
He's gonna be alright
It's alright
Alright (3x)
I work hard every day that I'm given
Working all of your life, tell me there's no me or I
And I'm thankful every day that I'm living
Working all of your life, tell me there's no me or I
And sometimes it can get too hard standing
Working all of your life, tell me there's no me or I

Baby come on if you'd only hold my hand then
You and I are molded into one
And I can't get enough
The future is within your sights
And it's the hope you feel inside
He's gonna be alright
It's alright
Alright (3x)
He's gonna be alright
It's alright
Alright (3x)
He's gonna be alright
When times are hard we get together, make the part (?) of what it is
Alright
He will be alrigh
