

# Free Love

## Cloud Control

She moves so quick, she moves so fast  
She moves so quick, she make the good times last  
She said that even in the mornin' said you know it's on  
    Even in the mornin'  
    Free love, free love  
    Free love, free love, love, love, love  
    She like it rough, she bendin' bones  
    She starts a screamin' when she's ready to go  
She said that even in the mornin' said you know that it's on  
    Even in the mornin'  
    Free love, free love  
    Free love, free love, love, love, love  
    Pretty girl, come with me, two on two, three on three  
    Passion is the flavor climbin' up this tree  
    Make a fuss, move around, keep it on the underground  
    Just beneath the covers I can see the sea  
    She knockin' knees so full of pride  
    She make the move 'cause she's got nothin' to hide  
She said that even in the mornin' said you know that it's on  
    Even in the mornin'  
    Free love, free love  
    Free love, free love, love, love, love  
    Free love, free love  
    Free love, free love  
    Free love, free love  
    Free love, love, love, love  
    Love, love, love, love, love  
    Free love
